

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claim 1 (original) A cosmetic composition comprising:

- (1) from 0.001% to 10% of Rosemary (*Rosmarinus officinalis* L. extract);
- (2) from 0.001% to 10% of Henna (*Lawsonia inermis* L. extract); and
- (3) from 0.000005% to 5% of Melanin;

the percentages being based on the total weight of the finished cosmetic composition.

Claim 2 (original) A cosmetic composition according to claim 1, wherein said composition comprises:

- (1) from 0.001% to 10% of Rosemary (*Rosmarinus officinalis* L. extract);
- (2) from 0.001% to 10% of Henna (*Lawsonia inermis* L. extract);
- (3) from 0.000005% to 5% of Melanin; and
- (4) from 0.001% to 10% of Sunflower (*Helianthus annuus* L. extract);

the percentages being based on the total weight of the finished cosmetic composition.

Claim 3. (original) A cosmetic composition according to claim 2, wherein said composition comprises:

- (1) from 0.001% to 0.03% of Rosemary (*Rosmarinus officinalis* L. extract);
- (2) from 0.001% to 0.03% of Henna (*Lawsonia inermis* L. extract);
- (3) from 0.0001% to 0.01% of Melanin; and
- (4) from 0.001% to 0.005% of Sunflower (*Helianthus annuus* L. extract);

the percentages being based on the total weight of the finished cosmetic composition.

Claim 4. (original) A cosmetic composition according to claim 1, further comprising a cosmetically acceptable base composition for shampoo.

Claim 5. (original) A cosmetic composition according to claim 4, wherein said base comprises at least one of the following: non-ionic surfactants; anionic surfactants; amphoteric surfactants; sunscreens; conditioning agents; moisturizing agents; viscosity agents; color-providing agents; or pearling agents.

Claim 6. (original) A cosmetic composition according to claim 5, wherein said base comprises at least one of the following: sodium sulfate tridecyl ether, sodium sulfate lauryl ether, sodium carboxylate lauryl ether (13), ammonium lauryl sulfate, ammonium sulfate lauryl ether, cocoamidopropyl betaine, disodium lauroamphodiacetate, sodium lauroamphoacetate PEG-80 sorbitan laurate, cocamide MEA Polysorbate 20, lauryl polyglycosides glycerin, polyquaternium 10, guar hydroxypropyltrimmonium chloride, PEG-150 distearate, sodium chloride, glycol mono- and/or distearate, dimeticone copolyol, polyquaternium 47, polyquaternium 7, silicone quaternium 2 pantenol succinate, PEG-14M, acrylamide, acrylamidopropyltrimmonium chloride copolymer, methylchloroisothiazolinone, methylisothiazolinone, pantenol, or hydrolyzed wheat protein.

Claim 7. (original) A cosmetic composition according to claim 6, wherein said base comprises cocoamidopropyl betaine, sodium sulfate tridecyl ether, PEG 80 sorbitan laurate, disodium lauroamphodiacetate, glycerin, PEG-150 distearate, sodium carboxylate lauryl ether (13), and polyquaternium 10.

Claim 8. (original) A concentrated composition suitable for use in cosmetic compositions, wherein said composition comprises:

- (1) from 0.001% to 10% of rosemary (*Rosmarinus officinalis* L. extract);
- (2) from 0.001% to 10% of henna (*Lawsonia inermis* L. extract); and
- (3) from 0.000005% to 5% of melanin;

the percentages being based on the total weight of the finished cosmetic composition.

Claim 9 (currently amended) A concentrated composition according to claim 8, wherein said composition comprises:

- (1) from 0.001% to 10% of Rosemary (*Rosmarinus officinalis* L. extract);
- (2) from 0.001% to 10% of henna (*Lawsonia inermis* L. extract);
- (3) from 0.000005% to 5% of melanin; and
- (4) from 0.0001% to 10% of sunflower (*Helianthus annuus* L. extract);

the percentages being based on the total weight of the finished concentrated composition.
